## Using Coupons

Coupons are a great way to save money on your grocery bill. Make sure to read what is on the coupon before you use it. Some coupons give you money off an item, others may offer a buy one get one free or get one free with a minimum purchase.

Here are some places to look for coupons:

- Weekly flyers
- Inside or on boxes of products you purchase
- Coupon Boards at the front of the grocery store
- Trade coupons with friends or families

- Have a coupon exchange folder available in your Collective Kitchen
