Devices Privacy Tips

Project Shift: Creating a Safer Digital World for Young Women - <http://projectshift.ca/>

YWCA Canada's Project Shift establishes the need for a gender lens to understand violence online and makes recommendations for a range of public and private actors, from educational institutions to parents and information, communications and technology organizations to counsellors and police

Crash Override - <http://www.crashoverridenetwork.com/>

Crash Override is a crisis helpline, advocacy group and resource center for people who are experiencing online abuse. They are a network of experts and survivors who work directly with victims, tech companies, lawmakers, media, security experts, and law enforcement to educate and provide direct assistance working to eliminate the causes of online abuse.

Tech Without Violence - <https://techwithoutviolence.ca/>

An online hub that provides practical information for social media users and key recommendations social media platforms can use to address and prevent cyberviolence.

HeartMob - <https://iheartmob.org/>

HeartMob is a community working to help end online harassment. They believe that the freedom of speech online doesn't mean anything if people are not free from abuse and harassment.

Feminist Principles of Internet - <https://feministinternet.org/>

The Feminist Principles of the Internet (FPI) are a set of statements that together provide a framework for women's movements to articulate and explore issues related to technology. They offer a gender and sexual rights lens on critical internet-related rights.

Me and My Shadow - myshadow.org

Tactical Tech's Me and My Shadow project helps you control your data traces, see how you're being tracked, and learn more about the data industry.

Privacy International - <https://privacyinternational.org/>

PI supports people everywhere to protect privacy, dignity, and freedom. They target companies and governments that don't respect the right to be free from the prying technologies.

World Wide Web Foundation - <https://fortheweb.webfoundation.org/>

The World Wide Web Foundation, also known as the Web Foundation, is an international non-profit organisation advocating for a free and open web for everyone. It is focused on increasing global access to the World Wide Web, while ensuring the web is a safe and empowering tool that people can use freely and fully to improve their lives.
